About Fiko Plast

Fiko Plast is a factory for **polyethylene packaging**.
The company was founded and started working **in 1998**.

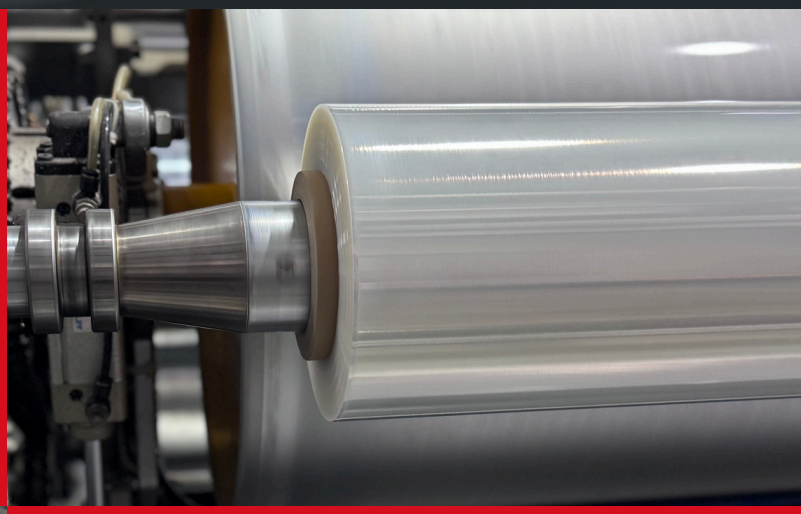

Our products: stretch foil, thermofoil, food stretch foil and black garbage bags.

About the company

The full name of the company is – Company for production, trade and services FIKO-PLAST import-export LLC with headquarters in Strumica, North Macedonia at "Agroberza 10 A" street.

Beginnings

At first, we started with the production of polyethylene bags for packaging agricultural products, when the needs on the market increased, we continued investing in new technology and the production of all kinds of packaging used in the industry.

Production

Our production is based on orders in dimensions and thicknesses according to the needs of the client himself.

Distribution

Apart from the domestic market, FIKO-PLAST also exports some of these products to foreign markets, where we have established several large collaborations. Our products are exported to Germany, Greece, Bulgaria, Kosovo, Switzerland, and Serbia.

About the company

FOLLOWING THE TECHNOLOGY

We always follow and introduce the latest trends in the production cycle.

ECO-FRIENDLY PRODUCTS

By fulfilling several certificates, our products do not pollute the environment (biodegradable).

COMPUTERIZED CONTROL

Control in production is always a necessity. We pay special attention to this field.

Dream high Conquer the World

At first, we started with the production of **polyethylene bags for packaging agricultural products**, when the needs on the market increased, we continued investing in new technology and the production of all kinds of packaging used in the industry.

Countries to which our products are exported:

application of **OUR PRODUCTS**

Agricultural industry

Food industry

Wood industry

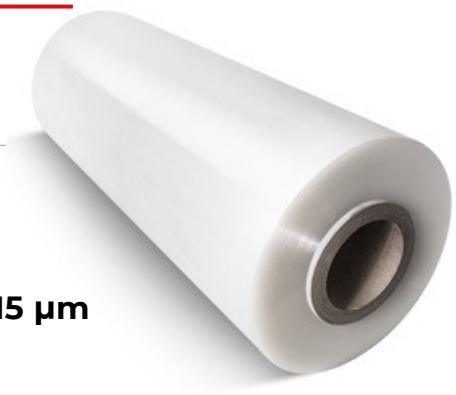

Canned industry

Textile industry

Our Products

Machine Stretch Foil

Machine stretch foil is used for machine wrapping of products.

We are able to produce machine stretch foil **from 15 µm to 30 µm** in thickness and width up to **500 mm**, depending on the customer's needs.

Thickness	Power 15 | 20 | 30 µm	Power 17 | 23 µm	Super Power 15 | 20 | 30 µm	Super Power 17 | 23 µm
Material	LLDPE	LLDPE	LLDPE	LLDPE
Width	500 mm	500 mm	500 mm	500 mm
Weight	16 kg	5 | 8 | 16 kg	16 kg	5 | 8 | 16 kg
Stretchability	250%	250%	350%	350%
Color	transparent			

Transport packaging pallet		
Power & Super Power		
5 kg	**8 kg**	**16 kg**
206 rolls	126 rolls	46 | 62 rolls

Available Refinements:

Frozen
films resistant to low temperatures.

Food
food safe films that may come into direct contact with it.

OSC (High Slip)
Slippery films dedicated to the close storage of pro- ducts. Prevents the phenomenon of „pallet sticking".

UV
the material shows increased resistance to UV radiation.

High Cling
Increased stickiness of the film, a solution
dedicated to confectioners.

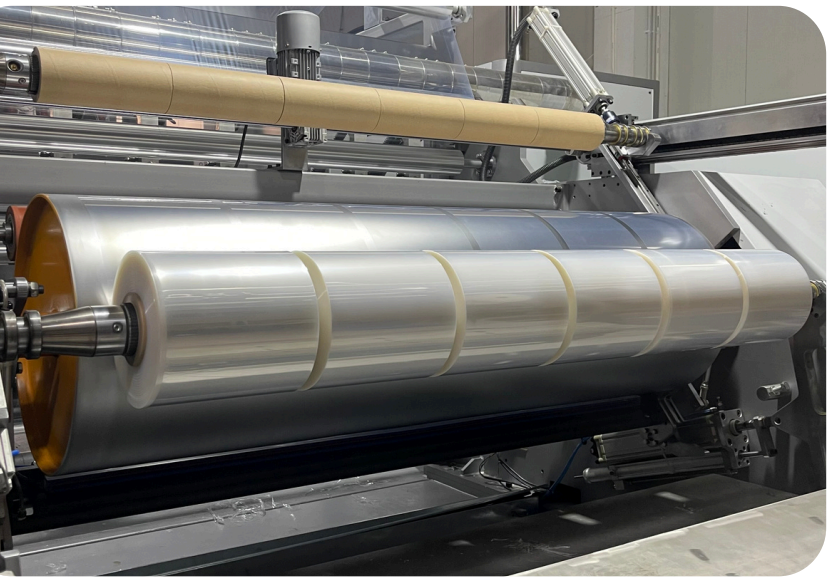

Product masking
The colored films effectively conceal the contents of the cargo.

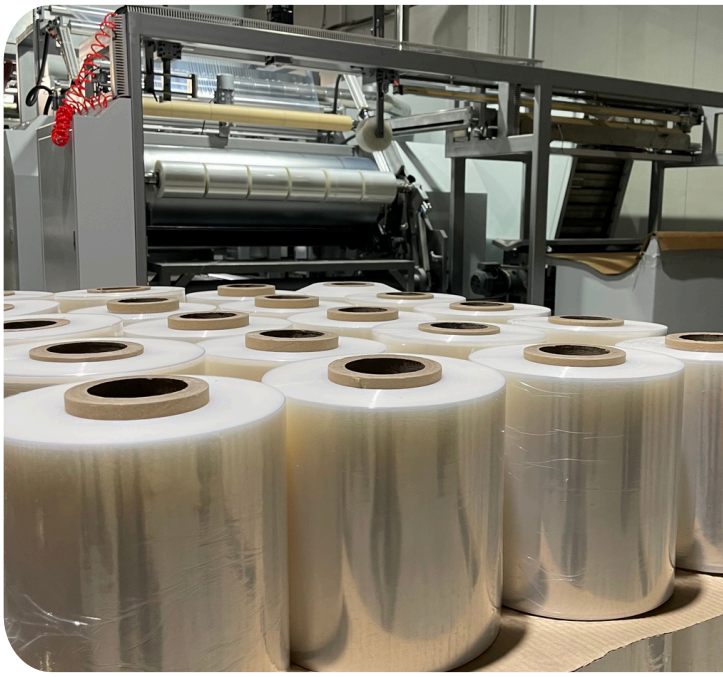

Small Machine Stretch Foil

Small Machine Stretch Film is used for machine wrapping of products, mainly products from the WOOD INDUSTRY.

Thickness	**23 µm**
Material	LLDPE
Width	250 mm
Weight	8 kg
Stretchability	250%
Color	transparent

Available Refinements:

Frozen
films resistant to low temperatures.

Food
food safe films that may come into direct contact with it.

OSC (High Slip)
Slippery films dedicated to the close storage of pro- ducts. Prevents the phenomenon of „pallet sticking”.

UV
the material shows increased resistance to UV radiation.

High Cling
Increased stickiness of the film, a solution
dedicated to confectioners.

Product masking
The colored films effectively conceal the contents of the cargo.

Hand Stretch Foil

Hand stretch films are used for manual wrapping the products.

We are able to produce manual stretch foil **from 17 µm to 23 µm** in thickness and width up to **500 mm**, depending on the Customer's needs.

Thickness	17 µm	23 µm
Material	LLDPE	LLDPE
Width	500 mm	500 mm
Weight	2,5 kg | 3 kg | 5 kg	2,5 kg | 3 kg | 5 kg
Stretchability	250%	250%
Colour	transparent	transparent

Transport packing pallet
17 µm | 23 µm
2,5 kg | 3 kg
1 pallet = 45 cartons
1 carton = 6 rolls

Available Refinements:

Frozen
films resistant to low temperatures.

Food
food safe films that may come into direct contact with it.

OSC (High Slip)
Slippery films dedicated to the close storage of pro- ducts. Prevents the phenomenon of „pallet sticking".

UV
the material shows increased resistance to UV radiation.

High Cling
Increased stickiness of the film, a solution
dedicated to confectioners**.**

Product masking
The colored films effectively conceal the contents of the cargo.

Jumbo Stretch Foil

Jumbo stretch film is intended for **stretch film manufacturers.**
It is standardly rolled as machine stretch film and hand stretch film.

It is produced in 2 categories:
- **POWER**
- **SUPER POWER**

Thickness	Power 17 µm / 23 µm	Super Power 17 µm / 23 µm
Material	LLDPE	LLDPE
Width	500 mm	500 mm
Weight	50 kg	50 kg
Stretchability	250%	350%
Colour	transparent	transparent

Transport packing pallet	
Power 17 µm / 23 µm	Super Power 17 µm / 23 µm
1 pallet = 18 rolls X 50 kg	

Available Refinements:

Frozen
films resistant to low temperatures.

Food
food safe films that may come into direct contact with it.

OSC (High Slip)
Slippery films dedicated to the close storage of pro- ducts. Prevents the phenomenon of „pallet sticking”.

UV
the material shows increased resistance to UV radiation.

High Cling
Increased stickiness of the film, a solution
dedicated to confectioners**.**

Product masking
The colored films effectively conceal the contents of the cargo.

Thermofoil

The thermofoil that we offer is a **high-quality product** designed for the packaging of **food products**, such as:
– juices
– still water
– sparkling water
– beers
– olive oil
It is also used for packaging **canned products**, such as:
– ajvar
– hot peppers
– spicy ajvar
– beetroot
– gherkins
– peas
– olives
and many other products.

We are able to produce thermofoil in **all dimensions and thicknesses that suit the client's needs.**

We are the **first and only producers of thermofoil** in North Macedonia.

Black Garbage Bags

The waste bag is a product intended for **one-time use.**

It is useful for lining the inside of your waste bins and storing waste in your homes, offices, facilities, cafes and more where it later ends up in public containers.

We manufacture in large quantities.

250 liters

Dimensions	
Height	125 cm.
Width	95 cm.

150 liters

Dimensions	
Height	110 cm.
Width	70 cm.

40 liters

Dimensions	
Height	70 cm.
Width	50 cm.

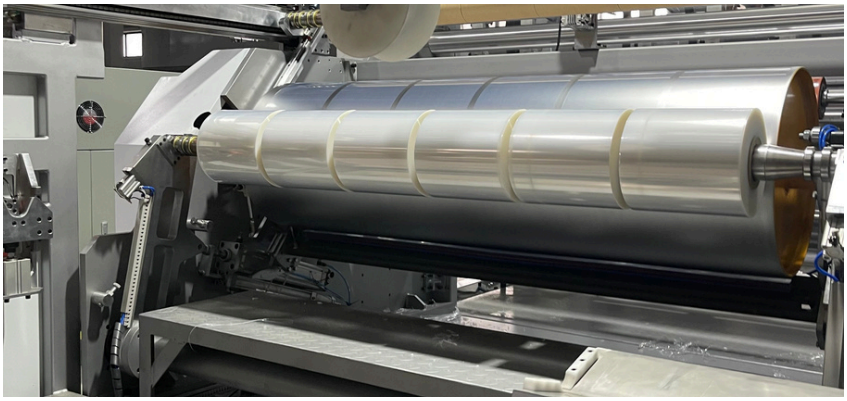

Available Refinements:

Biodegradable
Black waste bags are biodegradable and do not harm nature.
